DEMOTOOL
SPECIFICATION
SHEET

MACDONALD

DM11S

This Macdonald demolition pick will suit most light to medium breaking jobs in concrete & brick.

It is widely used in the construction & plant hire industries for general demolition work & removing concrete build up.

The DM11S is an effective, light weight & manoeuvrable tool for working in confined spaces.

BENEFITS

- Excellent power to weight ratio.
- High strike energy.
- Manoeuvrable for working in confined spaces.
- Silenced for effective noise suppression.
- Major components are precision machined from drop forged alloy steel ensuring maximum durability.
- Minimum moving parts to reduce internal wearing components.
- Quick change retainer.
- Designed for quick & easy maintenance with no specialist tools.
